Comments: (such as, notable birds seen, interesting bird or animal behavior, condition of the birding site, participant comments):

We had a beautiful day for birding. The birds were vocal and active. We had an Orchard Oriole singing to us at the parking area and we saw or heard 12 species as we began to go down the trail. The swallows were active over the fields with cattle and the pond area. As we usually do, we saw several Grasshopper Sparrows and a lot of Meadowlarks. Everyone did an excellent job seeing, hearing and identifying birds. A special thanks to Pam and Doug DeNeve for their expertise. All in all, an excellent time was had by all.
