Comments: (such as, notable birds seen, interesting bird or animal behavior, condition of the birding site, participant comments):

It was excellent day for a Bird Walk. The weather was excellent. Initially the birds were not very vocal, but as time went on, they became more active. As we heard both the White-eyed Vireo and the Red-eyed Vireo we saw that they we are arriving back from migration. We were in hopes of possibly seeing or hearing a Northern or Louisiana Waterthrush, but it was not to be this day. All in all, an excellent day.
