Comments: (such as, notable birds seen, interesting bird or animal behavior, condition of the birding site, participant comments):

It was an excellent day for birding despite the humidity. We walked the trail around the ball fields near the parking area. We then birded along to road down to the Marina. The birds were vocal and active. Although with the tree canopy in full, it was challenging to just see movement of the birds, in addition to trying to identify them. A special thanks to Pam & Doug Deneve, for helping us identify the birds. Over at the bridge area we did see a Red-headed Woodpecker in the distant snags, a Great Blue Heron, a Summer Tanager, and a Blue Grosbeak. All in all, an excellent birding day.
