**Comments: (such as, notable birds seen, interesting bird or animal behavior, condition of the birding site, participant comments):**

This was an excellent Bird Walk for the first one of the season. The weather cooperated, with cool temperatures and partly cloudy skies. As we are entering the Fall season and for the birds, the breeding season is over, the birds were not singing as much as we saw in the Spring and Summer months. So, it was a bit challenging to spot the birds by movement. But all in all an excellent day.
